31st IEEE European Test Symposium

Chania, Crete, Greece, May 25-29, 2026

Call for Papers

The IEEE European Test Symposium (ETS) is Europe's premier forum dedicated to presenting and discussing scientific results, emerging ideas, hot topics and new trends, as well as industrial case-studies and applications in the area of electronic-based circuits and systems testing, reliability, safety, security and validation. ETS'26 will take place at Chania, Greece, and it is organized by the University of West Attica, the National Technical Univ. of Athens, and the Delft Univ. of Technology. In addition to regular Scientific Papers, Keynotes, Special Sessions, Panels, and Embedded Tutorials, ETS'26 also features papers/highlights/demos and vendor sessions from the industry, as well as a rich set of student-related activities including a PhD Forum and a PhD Thesis Competition. ETS is the major event of the European Test Week that also includes the Test Spring School (TSS) and fringe workshops.

The areas of interest include (but are not limited to) the following topics:

T1 – Dependable AI and AI for Testing
T2 – Functional Safety, Fault Tolerance and Reliability
T3 – Methods for Emerging Technologies and Architectures
T4 – Security and Trust
T5 – Test and Reliability for Analog, Mixed-Signal, and RF
T6 – DFT, Test Access Standards and Test application
T7 – Validation, Verification, and Debug
T8 – Test Generation, Fault Modeling & Simulation, Diagnosis

Submissions – ETS'26 seeks:

- **Scientific Papers** for the IEEE Formal Proceedings, presenting novel unpublished and complete research works (up to 6 pages) to be peer-reviewed and possibly accepted either as a full 6-page paper accompanied with an oral presentation or a short 4-page paper accompanied with a poster presentation. ETS'26 fully complies with IEEE publication policies regarding multiple submissions, plagiarism, etc.
- **Industrial Contributions** for the Informal Proceedings, presenting results, highlights, or demos from the industry (up to 6 pages); at least one author from the industry is required.
- **Student Contributions**, such as **PhD Forum**, which targets PhD students who have preliminary research results, and **McCluskey Thesis Contest**, offering an ample stage to present PhD research and theses, and – being a regional semi-final – the chance to advance to the award's finals taking place during IEEE ITC 2026.

ETS'26 also seeks proposals for:

- **Special Sessions, Panels, and Embedded Tutorials**
- **Fringe Workshops**, to be held on May 28-29, 2026

Key Dates for Scientific Papers:

Abstract Submission	**15 December 2025**
Final Paper Submission	**12 January 2026**
Author Notification	**20 February 2026**
